GM Shares his thoughts  
Handling A Special Cargo

*Message*

India Gateway Terminal (IGT) is a strategic addition to the ever-growing portfolio of DP World across the globe and to the network in Asia and on the Sub Continent.

In 2006, we crossed our first milestone with the initiation towards developing phase one of the new terminal on Vallarpadam island in Kochi. DP World remains committed to establishing IGT as a gateway to India.

As the market demands capacity, IGT will stay ahead of the demand curve with the intent of developing this container terminal into the single largest operation in the country. IGT is the first terminal to be located in a special economic zone.

In the course of the development referred to above, IGT will put Kochi on the global map of key ports and will contribute effectively in reducing India's dependence on foreign ports for transshipment for its trade.

We are very proud to have successfully completed the global integration of DP World and P&O Ports which we acquired in March 2006 in record time. The impact within India is the addition of three ports to the DP World India portfolio resulting in an expanded portfolio including Mumbai, Chennai and Mundra in addition to Kochi and Vishakapatnam.

DP World is committed to the development of infrastructure in India and to create opportunity within the communities where we are established.

We have a great team in place in India and on behalf of the management of DP World and myself, I would like to take this opportunity in thanking you for your sincere effort and contribution.

Here is wishing you and your family a peaceful, prosperous and happy new year.

Anil Wats

Executive Vice President & C.O.O., DP WORLD
