

# 2nd Anniversary

DP world Cochin completed two years of its operations at Cochin on April 1, 2007. On the occasion of our Second Anniversary, celebrations were arranged at A.J. Hall, Kaloor.

Preparations of over two months, celebrations spreading over a month and active involvement of employees and their family are the components gone into the celebration leading to a very entertaining evening on April 1st, the 2nd anniversary day. The efforts of employees to make the celebration a memorable one were evident in every aspect of the celebrations, whether it is the sports events or the selection of venue or design of the stage or selection of items of the entertainments and the artists or the menu of the food and the caterer

7 sports events repeated in different age

groups with participation of 68 employees and 34 children started on March 5 and ended on March 22 with distribution of prizes to winners. Children in spite of their tough exam preparation days and employees in spite of scorching heat of sun were quite enthusiastic this time also to participate in various events.

The specially designed stage back drop and the flower arrangements of the stage gave an exotic look to the entire auditorium. The design of the stage was replicated in the entire stationaries of the function such as the invitation card, volunteers' badge and vehicle parking pass.

The anniversary evening celebrations included a caricature programme by Mr. Jayaraj Warriar, a well known humor artist having staged his programmes a number of

times in India and abroad, kept the people laughing through out the show. This was followed by a concert by Cochin Haze a famous orchestra team. The desire for melody numbers from moderates and middle aged had to give way for the demand of youngsters for thunder numbers from latest films. Hysterical dance of youngsters to the tune of the thundering drums and ear busting musical sounds frenzied the audience. In fact, the people realized that the programme has reached the end only when the Master of Ceremony announced about beginning of the dinner. Youngsters still preferred to go late for the dinner and the orchestra continued their thunder numbers for half an hour more on their request.

The evening ended with a scrumptious dinner that was arranged at the hall itself.
