Below is the response of Ajith, on what prompted him to take this photo?

Taking pictures of sceneries has always interested me. When I saw the notice on the photography competition and the topic allotted which was 'Beauty of Willingdon Island', I thought of giving it a try.

I have been living in Willingdon Island from a very young age and I also did my schooling here; the beauty of the sea and port area has always mesmerized me. I decided to take this scenery because it had all my favorite elements, the sea and also a view of the terminal. And on that fine evening the nature offered me the chance to take this photograph
